

## Product Information Sheet

### Dry Cow and Heifer Bolus for Long-Term Supply of Trace Elements and Vitamins

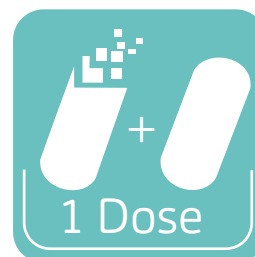

BOLITRACE BIOTIN+ has been developed as a complementary feed for dairy cows and heifers to support animals in the final stages of gestation

- BOLITRACE BIOTIN + is a unique combination of 2 bolus delivered in a single dose using the specially designed 'easy to use' applicator lance.
- Bolus contain biotin, zinc, copper, iodine, manganese, cobalt, selenium and vitamins A, D3, E

#### Why Use BOLITRACE BIOTIN +

- Save time & animal handling
- One dose of BOLITRACE BIOTIN + at drying-off (2 controlled release bolus)
- Long term supply of trace elements & vitamins for 120 days for stronger hooves
- Better quality colostrum
- Stimulation of reproductive functions (heat expression)
- Support the regeneration of mammary gland
- Strong and healthy calves

### TARGET - In calf cows and heifers in the later stages of pregnancy

BOLITRACE BIOTIN+ is a complimentary feed for cows and heifers in the later stages of pregnancy. Rich in vitamins A, E & D3. High levels of biotin, zinc, copper, iodine, manganese, cobalt and selenium. For support of calf growth, calcemia regulation, immune system, fertility, and hoof quality.
